DETROIT, MICHIGAN

MICHIGAN'S OLDEST AND MOST RELIABLE PLUMBING SUPPLY HOUSE

McCORMICK

PLUMBING SUPPLY CO.

FREE DELIVERY WHEN YOU BUY AT McCORMICK

Copr. 1947 McCormick
Plumbing Supply Co.

Our own trucks have always delivered orders within the city of Detroit . . . and this shall be continued. Now, we are adding free delivery service for our out-of-town customers. If you live anywhere within 50 miles of our stores — and that includes all of Wayne-Oakland-Macomb & Washtenaw Counties.

You Know Your Complete Cost

The catalog price is your exact cost, to the penny. You do not have to make allowances for freight charges. We pay the *full* amount of the freight and make no exceptions at all. Every item in this catalog is covered. Many plumbing and heating items are heavy and bulky, and our paying the shipping charges amounts to a considerable savings for you. The thrifty buyer will notice, too, that McCormick's prices are practically always lower than prices elsewhere with the freight still to be paid.

EASY MONTHLY PAYMENTS

AT LITTLE MORE THAN OUR SPOT CASH PRICES

Any purchase of \$10 or more can be made in easy payments. To cover the expense, a small service charge of approximately 10 percent is added to the spot cash prices in this catalog. This charge is not hidden . . . you know to the penny the amount you pay for time payment service.

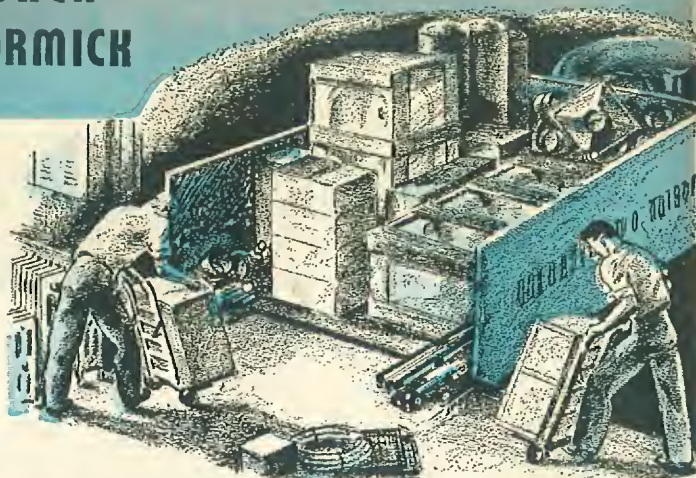

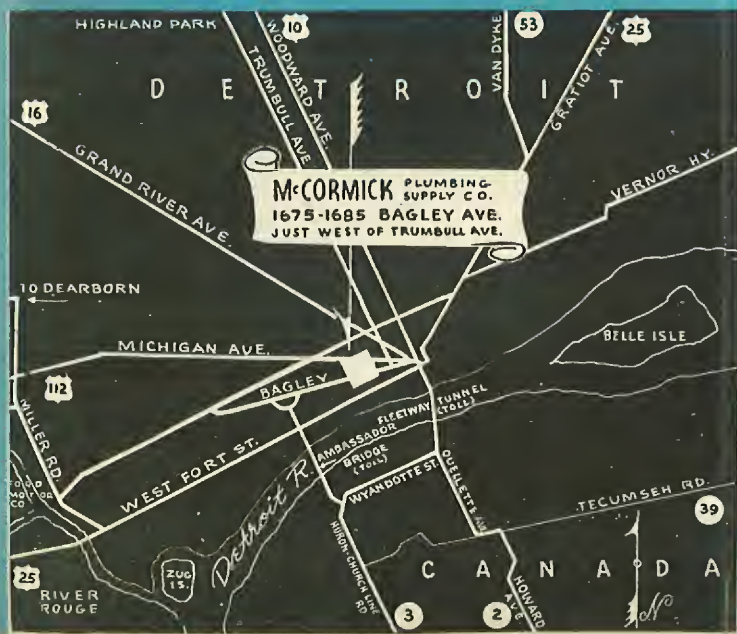

Purchases of over \$100 can be made at even lower service rates. Total charges are less than $\frac{1}{2}$ of 1% monthly added to our low cash prices. You can take UP TO THREE YEARS TO PAY, in accordance with federal credit regulations. This example will show you how little it costs to finance your purchase:

Cost at Spot Cash Prices	\$100.00
Total Financing Charge for 12 months..	5.26
(less than $\frac{1}{2}$ of 1% each month)	
Your Entire Cost.....	\$105.26

With this simple Easy Payment Plan, you make only a small down payment. There is no "red tape" . . . no government inspection . . . no endorsements. All transactions are confidential.

Free Delivery in Detroit

Let this map guide you to our McCormick Plumbing Supply Co. Store & Warehouse

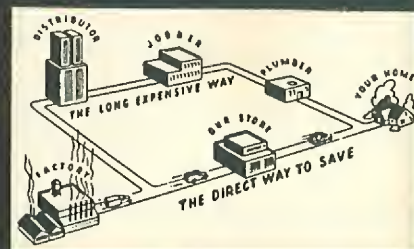

How Does McCormick Have Material When No One Else Seems to Have It?

Lots of folks have asked that question. Here's the answer. We always played square with the manufacturers back in the "old days" . . . just as we always played square with our customers. We never tried to chisel special concessions. As a result, suppliers naturally favor us in shipments now. We get the most material and get it first. *Another thing* . . . we have never held back material for higher prices or kept it for "special customers," for all of our customers are "special" to us.

Once Again . . . It Pays to Deal with Specialists

Being specialists in plumbing and heating, we can place undivided attention on materials for the home, purchasing wisely and devoting our entire warehouse space to just these items. By constant check, we keep our stocks complete and balanced. So, we can furnish practically any item from our present supplies immediately—there is no need to wait weeks and even months for delivery.

HERE IS THE REASON FOR OUR LOWER PRICES

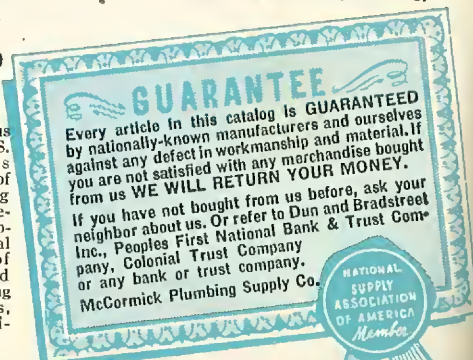

Direct Selling Cuts Distribution Costs

Direct selling cuts out all profits of distributors, jobbers, and other needless "middlemen." We buy our merchandise direct from the factory in carload lots. The price you pay is this factory price plus just a reasonable amount to cover our low overhead and one small profit. Our tremendous buying power, large volume business, and low operating costs mean additional savings for you. We pay no commissions . . . we grant no discounts. Our catalog prices are our store prices. They are the same to all customers, whether plumbers, steamfitters, general contractors, corporations, or property owners.

NATIONALLY ADVERTISED PRODUCTS

Every item offered by us meets or exceeds the U.S. Bureau of Standards specifications and those of nationally known testing laboratories. Our materials carry the seal of approval of the National Supply Association of America and are accepted as first grade by leading plumbers, contractors, architects, and experienced buyers.

THIS LABEL PROTECTS YOU

All bathroom fixtures in this catalog bear the famous HARD LUSTRE label. This label is found only on the best laboratory-tested porcelain and vitreous china. It assures a flawless, flint-hard surface and certifies first quality as specified by the Sanitary Enamelware Manufacturers Assoc. in accordance with the recommendations of the U. S. Bureau of Standards.

THESE SAME LOW CATALOG PRICES ARE
OUR STORE PRICES—SEE OUR DISPLAYS

A FRANK TALK ABOUT PRICES

How are plumbing and heating prices today? Our answer is—"low." We prove it by publishing this catalog . . . with every item plainly priced, so you can make comparisons and see for yourself that the prices are right.

HOW DO PRICES COMPARE WITH PRE-WAR YEARS?

We do not say that prices are lower than before the war . . . although some of them are. Those of you who still have a copy of our pre-war catalog will find that most prices are either the same or up slightly. You expect that. Check, though, how small the advance has been compared to the increased cost of food, clothing, furniture, automobiles, etc.

HERE IS WHY OUR PRICES ARE STILL LOW

Part of the reason that prices have been kept down is that manufacturers' prices on plumbing and heating have not gone up as much as other lines of merchandise. A more important reason is that we have kept our margin of profit at Depression levels. Even though scarcity conditions would permit us to get double or triple these catalog prices on some items, we are keeping our same sensible prices. Every item is priced with the same profit factor we used back in 1932 and 1933.

PLUMBING & HEATING

BY COMPARISON—
PLUMBING AND HEATING
ARE 8% UNDER NORMAL

Practically all prices have advanced . . . some more, some less. A Department of Commerce survey comparing today's prices with pre-war prices shows that plumbing and heating prices are 8% less than what they would be if the normal price relationship of all goods were maintained.

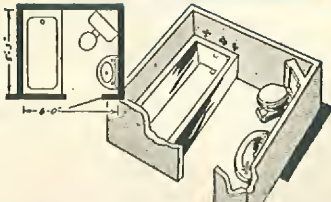

WHAT IF PRICES SHOULD COME DOWN?

Prices in this catalog are so low that there is little chance of their becoming still lower. If, though, our costs should come down, we shall immediately reduce our price to you, regardless of the price in this catalog. So, you are always sure of buying at the rock-bottom price. Since prices are so low and our margin of profit has been kept so close, we must also reserve the right to adjust any price if the manufacturer increases his price to us.

FREE PLANNING SERVICE

Let Our Engineers Design a Modern Bathroom for You

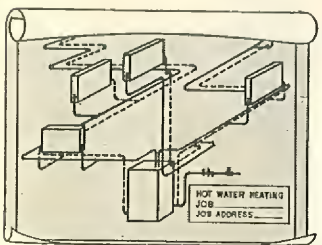

You need not be puzzled because of the size or shape of your proposed bathroom. Our experienced engineers have planned hundreds of layouts for small and odd-shaped rooms, and they will be glad to work out the most convenient and up-to-date arrangement for you, too. We also maintain a staff of heating experts to give you the same assistance on any heating problem. This service is maintained for your benefit. It is absolutely free.

Even in a space this small you can have a full sized bathroom with room to spare.

Free Estimates of Your Entire Cost on Any Plumbing or Heating Installation

We'll gladly give you an estimate of the entire cost of any job. Bring a sketch or floor-plan with you—we can often give you the complete price while you are at our store. Or, if you choose, we will make a thorough survey of your home and give you our recommendations as well as estimates on your requirements. We make no charge for this survey or estimate.

A FEW REMARKS ABOUT THIS CATALOG

Despite these difficult times, we have printed this new catalog in order that you may have an up-to-date guide for your heating and plumbing purchases. Because of today's unusual conditions, it is necessary to make a few statements concerning this book.

1. Because of the paper shortage, we had to condense this catalog into fewer pages. Obviously, many items had to be left out. If you do not find what you want, visit our store. If it is plumbing or heating, we will have it.
2. All statements made in this catalog are true at the time of publication. We ask

your tolerance if circumstances cause changes at some future date.

3. The merchandise descriptions are correct. However, if our present stocks become exhausted, it may be necessary to furnish alternate items of equal value. Again, we ask your tolerance.

4. Everything in this catalog will be sold in accordance with government regulations in effect at the time.

5. So that we may serve the greatest number of customers, we reserve the right to limit quantities on scarce merchandise.

Our installation service is merely for your convenience. You can buy any materials in this catalog and arrange for your own installation.

Save ON INSTALLATION,
Both PLUMBING & HEATING

If you do not already have a plumber or steamfitter in mind for your job, consider the 5 big advantages of our flat-rate installation department:

1. You save on the price of materials.
2. Due to our large-scale operations, you save on labor.
3. Your job will be properly installed under the requirements of all local plumbing and heating laws.
4. Your entire job, both labor and material, will be guaranteed by one responsible concern.
5. You can pay for the complete job in easy payments.

A large percentage of our installation work has been reduced to flat-rate labor costs. These standard rates are based on our experience on the thousands of satisfactory installations we have made in the past. Compare the following flat rates with the prices you would ordinarily pay for the same work.

Replace Kitchen Sink . . .	\$16.00	Replace basement water lines . . .	\$45.00
Replace Laundry Tub . . .	16.00	Install 5-radiator heating system . . .	90.00
Install shower . . .	20.00	Replace closet bowl . . .	8.00

Your Heating System Costs Less THE UNIT-PACKAGE WAY

Complete HOT WATER HEATING SYSTEMS

\$555
UNIT PACKAGE
No. 1

Only \$15.95 Monthly on Our EASY PAYMENT PLAN

No down payment, no endorsements, no government inspection, no red tape of any kind. Total charge for this convenience is less than 1/2 of 1% monthly.

The Unit-Package Way is a unique method of buying a complete heating system. By this method you can now buy your new heating system without trouble or loss of time. You merely select from these pages the package system best suited to your home—and there is your price, down to the penny. Our engineer checks your choice against your exact requirements by making a thorough thermal survey of your home. This catalog shows only those systems most often used. For other sizes, phone or visit our store—we have a "tailored-to-fit" Unit Package Heating System for any home.

We guarantee that the UNIT PACKAGE HEATING SYSTEM, when properly installed, will heat your home to 70 degrees F. in zero weather.

Home Comfort Guarantee

After all is said and done, the main thing you want in a heating system is "heat." We guarantee in writing that your heating system will give you heat comfort even in the most severe weather. It is the plainest, most positive guarantee anyone could give on a heating system.

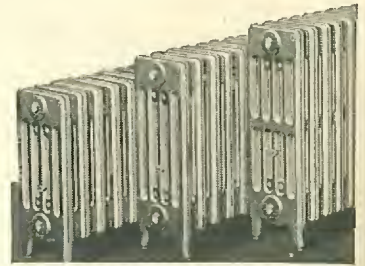

SEE HOW LITTLE A COMPLETE AUTOMATIC HOT WATER SYSTEM WOULD COST IN YOUR HOME

EVERYTHING INCLUDED IN ONE LOW PRICE

Our heating systems are sold the Unit-Package way . . . complete in every detail. No "extras" to mount your cost above the original estimate. Look what you get with every system:

(A) Coal-saving boiler of ample size; (B) attractive slim-tube radiators; (C) first quality valves and unions; (D) automatic damper control; (E) automatic governor; (F) thermostat—a combination gauge that shows altitude, pressure, and temperature; (G) full-weight pipe and fittings; (H) every other item needed for complete and perfect operation . . . smoke pipe, asbestos insulation, cement, radiator bronze, and even firing tools.

SLIM TUBE RADIATORS

These cast iron radiators combine modern streamlining and handsome appearance with the very maximum of efficiency. Built compactly with small waterways, they take up less room and at the same time provide faster circulation and quicker heat. Shipped direct from factory to save handling expenses. Single radiators less than 100 sq. ft. shipped from stock at 10% additional.

GUARANTEED BOILERS for HOT WATER

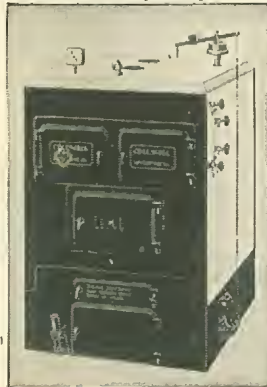

Streamlined, compact boilers, with handsome metal jacket. Oversize flues; smooth, large waterways; machine ground doors to eliminate dust and smoke leaks; heavy asbestos insulation; roomy ashpit. New design permits fire to travel three times through the boiler, consuming all gases and giving extra heat from every pound of coal.

The IRON-FIREMAN STOKER FOR AUTOMATIC COAL HEATING

\$295
INSTALLED

Complete with thermostat and automatic controls.

This famous trademark is your assurance of quality, dependability, and superior performance. Every stoker guaranteed by ourselves and the manufacturer. We provide day or night service on stokers.

No smoke with a stoker . . . no ashes, either. Use less expensive coal and have uniform, automatic heat. Can be installed in your present warm air furnace or hot water boiler. At your request, we shall send a factory representative to your home to answer any questions. No obligation.

PRESSURE TANK

Water expands as heated and relieves into tank. Air cushion absorbs sudden pressure and water hammer. Saves fuel, keeps basement floor dry. 15-gal. cap'y. . . \$10.95 30-gal. cap'y. . . 16.25

Gas Fired HOT WATER BOILERS

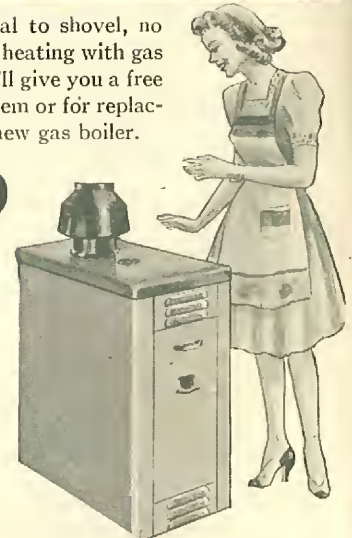

No smoke, no ashes, no dirt, no coal to shovel, no work at all when you use gas . . . and heating with gas today costs little more than coal. We'll give you a free estimate for a complete gas-fired system or for replacing your present coal boiler with a new gas boiler.

The New Space-Saver Automatic Gas Boiler

\$189

This boiler is only 26 inches high, 26 inches long, and 13 inches wide, yet it will easily heat a 5-room home to 70° F. in sub-zero weather. New patented design cuts weight of iron almost in half . . . resulting first in a lower initial cost, and, more important, in a decided reduction in gas costs.

EVERYTHING INCLUDED IN ONE LOW PRICE WHEN YOU BUY THE UNIT-PACKAGE WAY

COMPLETE WARM AIR HEATING SYSTEM

EASY PAYMENTS. On our liberal credit terms you can take up to three whole years to pay. Total charge for this convenience is less than 1/2 of 1% monthly.

\$169

Unit Package No. 1

Our heating systems are sold the "Unit-Package" way, meaning that every necessary item is included in one low price—there are no extra charges of any kind. Every warm air system is "tailored-to-fit," with a furnace of correct size and capacity enclosed in a heavy double casing and bonnet. Smoke pipe, basement lines with asbestos paper covering, unbreakable floor and wall registers, complete cold air runs, flat stack pipe, all fittings, even such items as cement, damper control, and poker . . . these are all included in our one, low, definite price.

Tailored-to-Fit Systems for Any Size Home

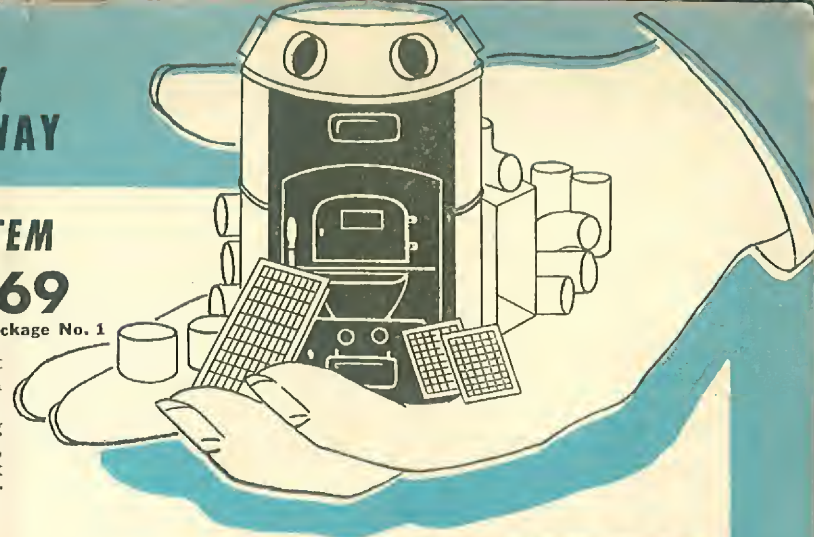

Package System No. 1 includes: 18" furnace, 4 first-floor warm air runs, 1 first-floor cold air run, maximum warm air pipe area, 201 sq. ins. **\$169.00**

Package System No. 2 includes: 20" furnace, 5 first-floor warm air runs, 1 first-floor cold air run, maximum warm air pipe area 304 sq. ins. **\$224.00**

Package System No. 3 includes: 20" furnace, 4 first-floor warm air runs, 2 second-floor warm air runs, 2 first-floor cold air runs, maximum warm air pipe area 340 sq. ins. **\$277.00**

Package System No. 4 includes: 22" furnace, 5 first-floor warm air runs, 1 second-floor warm air run, with 2 registers, 2 first-floor cold air runs, maximum warm air pipe area 431 sq. ins. **\$281.00**

Package System No. 5 includes: 24" furnace, 5 first-floor warm air runs, 2 second-floor warm air runs, with 3 registers, 2 first-floor cold air runs, maximum warm air pipe area 480 sq. ins. **\$305.00**

Plainly Written Guarantee

Every heating system we sell is fully guaranteed in writing. We guarantee not just the furnace, but every single part of your entire heating system.

We shall be glad to send a representative to your home to give you an estimate for any size heating system.

CAST IRON & STEEL FURNACES

All furnaces complete with bonnet and casing

Your choice of a steel furnace built of boiler plate steel, riveted and welded, or of a sturdy cast iron furnace. Both are constructed to burn coke, smokeless coal, or regular coal . . . or they can be equipped with a stoker.

Gas Fired

AIR CONDITIONERS

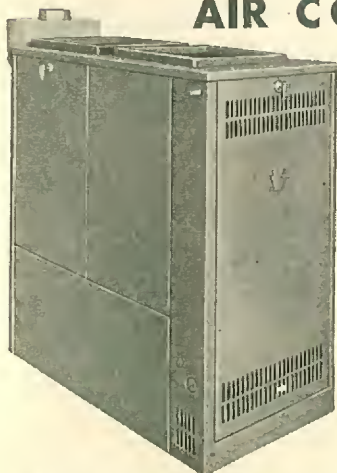

\$345

These air-conditioners filter and humidify the air in your home as well as heating it. Clean, warm, properly humidified air is gently circulated to every room . . . all entirely automatic with no attention or effort on your part. With gas fuel, of course, there is no smoke, no ashes, no coal storage problem. In summer, these air conditioners can be used to circulate cool air through the home.

Model	AGA Rating	Price
5	104,000 Btu.	\$345.00
6	125,000 Btu.	364.00
8	167,000 Btu.	409.75

All units AGA approved

We shall gladly give you an estimate for installing a gas-fired air conditioning system in your home. At your request we shall send a heating expert to measure the heat loss of your home and give you the exact price, to the penny. No charge for this service.

AUTOMATIC GAS CONVERSION BURNERS

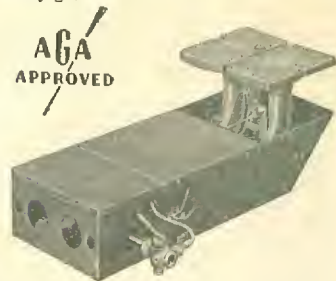

\$185

Completely Installed

All of our conversion burners are approved by the American Gas Association . . . so you are assured of safe dependable equipment, thoroughly inspected and tested.

Our installation service is merely for your convenience. You may purchase just the material and make your own arrangements for putting it in your furnace or boiler. The price of either type of conversion burner with automatic controls is . . . **\$119**

This single low price is the exact amount you pay—and it includes the complete installation, wire-brushing of furnace, baffling of flue, safety limit switch, automatic controls, and all necessary pipe, valves, and fittings. There are no "hidden extras" to mount your cost above the original figure. Your choice of the refractory brick burner at the left or the drilled port type below. Installation is made neatly and efficiently by our own skilled mechanics in accordance with recommendations of the gas companies. All material, and the installation too, are fully guaranteed.

GAS FLOOR FURNACE

\$113

Complete with all automatic controls.

A floor furnace is set in the floor where it takes up no useable space. It draws in floor level air, quickly re-heats it and circulates the freshly warmed air through the house. It can be used in homes with or without basements. Easy to install, because everything comes complete, ready to attach to the gas line and flue. A.G.A. approved. All parts are precision made and each furnace is performance tested and burned before leaving the factory. Furnaces are 50,000 BTU capacity and will heat 4 average rooms or 3 large rooms.

All of our floor furnaces are 100% automatic. Light it once, set the thermostat, and then forget it for the rest of the winter.

Jewelry chrome fittings—mixing faucet, trap, strainer, supply pipes—are included too.

YOUR CHOICE . . . BUY MATERIALS ONLY OR COMPLETE INSTALLATION

SEVEN WAYS TO ENJOY THE NEW ADJUSTO SHOWER

If you were willing to spend \$50 for various kinds of showers—you still could not get all the features of the ADJUSTO, the modern all-purpose shower. The ADJUSTO adapts itself to dozens of uses . . . see seven frequent ways illustrated at the right. ADJUSTO fits old or new tubs. It's instantly adjustable to any position desired. Water can be directed just where you want it, in either a gentle or a forceful spray. A half twist of the patented head gives a full solid stream of water (not a spray). This head is of the new "power" type and is self-cleaning. It actually uses 1/2 less water than old-fashioned types. The ADJUSTO is easy and economical to install. All parts are in one compact unit. Just one set of valves is needed for tub and shower combined. It is sturdily constructed of prime bronze, guaranteed for 10 years, but built to last a lifetime. Triple-plated with sparkling jewelry chrome. The ADJUSTO, with its seven uses, is on display at our store. Come in and see it. ADJUSTO shower, as illustrated and described . . . \$16.95

ADJUSTABLE TO ANY HEIGHT

MODERN BATHTUBS For Roomy, Luxury Bathing

Like modern automobiles, all bathtubs built today are good bathtubs, soundly and sturdily constructed. Our new bathtubs, however, give you more than this. They add streamlined beauty and a brand new design which makes them roomier, safer. Come in. See these modern tubs on display. We have them in every size and type.

Four-way FEATURES:

1. TUB BATH—more roomy, low and easy to enter.
2. SHOWER BATH—new flat bottom gives safer footing.
3. FOOT BATH—sit comfortably while bathing your feet.
4. DRESSING SEAT—a bathroom stool without using extra space.

THE Four-way BATHTUB

The Four-Way Tub, while designed to be the most practical bathtub ever built, also turned out to be the most beautiful. Its convenient seat extends almost the entire length. Mothers find it comfortable when bathing the children. Old and young alike appreciate this ready seat while drying the body. And because of its new design, there's plenty of room to stretch out and bathe in comfort. Actually, there is as much room in the 5-foot Four-Way Tub as in oversize 5 1/2-foot ordinary tubs. Only 16 inches high—safer for elderly persons to step in and out. Made of heavy cast iron, triple-coated with snow-white porcelain—all the hardness of flint and the sheen of a mirror.

Recess pattern. Outlet on right or left. 30" wide. \$58.00

Less fittings. 4 1/2 ft. \$59.95 5 1/2 ft. \$69.75

SHOWER CABINETS

Complete With Curtain and All Fittings **\$55.00**

Here's an ideal all-steel shower cabinet for either bathroom or basement. A necessity, too, in tourist homes, cabins, factories, etc. Sturdily constructed throughout. Made of heavy gauge steel with baked white enamel finish. Has black enameled non-slip receptor. Plenty of room inside, 76"x30"x30". All accessories included: chrome plated brass shower valves; ball-joint shower head; soap dish; shower curtain; curtain rod; curtain pins; chrome plated strainer. Quickly assembled . . . you can do it yourself in less than 30 minutes. Shower can be installed on either right or left side. Complete. \$55.00

Classic BATHTUB

Streamlined corner tub. Heavy cast iron, finished in lustrous triple-coat porcelain. 30" wide, Right or left corner. Less fittings.

5 ft. long. \$69.95

Electric BATHROOM HEATER \$1995

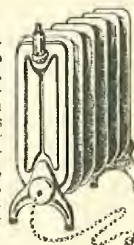

Built into the wall and completely out of the way. Easy to install . . . fits recess 7 1/4"x13". Fan draws cold air from floor and circulates warm air. Ideal for bathrooms, garages, cabins, sickrooms, sun porches. Special carrying handle provided, so you can move it from room to room.

Electric STEAM RADIATOR

\$36.00

Safe and convenient . . . plugs into any wall socket. Uses no more current than a modern electric iron, less than a kilowatt per hour. Ideal for bathrooms, garages, cabins, sickrooms, sun porches. Special carrying handle provided, so you can move it from room to room.

ADDITIONAL SHOWER GOODS

Showers for every type of installation in old or new homes, are shown elsewhere in this catalog. Let us help you select the shower you want.

BATHTUB FITTINGS

To give you a wider, better choice, our bathtubs are priced without fittings. Space permits us to show only the most popular fittings here. At our stores you'll find a complete selection of every type to fit your requirements.

(A) CHROME BATH FAUCET—Here is a bath faucet at a remarkably low price yet it is made of brass and finished in jewelry chrome. Complete with lock nuts. \$3.95

(B) For built-in tubs. You can temper the water to the exact degree. Brass jewelry chrome finish. \$8.95

(C) Wall fitting for built-in tubs. Bronze, with exposed parts chrome plated. Art pattern \$12.00

(D) Heavy bath faucet. Cast bronze, chrome plated. Can also be furnished with lever handles. \$6.90

(E) Supply pipe for tubs on legs or base. Complete with nuts for coupling direct to bath faucet, escutcheon. Brass, chrome plated \$1.95

(F) Comb. waste and overflow. Operated with trip lever—NO chain or rubber stopper. Brass, jewelry chrome finish. \$9.85

(G) Comb. bathtub waste and overflow, of nickel plated brass. With rubber stopper and chain. \$4.40

(H) Comb. fitting for built-in tubs. Outer handles control water supply, center handle controls shower. Heavy brass, finished in jewelry chrome. \$15.90

Attractive bathroom fixtures promote habits of cleanliness. Your children will be glad to "wash up" at a new, glistening white lavatory.

HAVE PRICES GONE SKY-HIGH?

Not on these lovely vitreous china lavatories. They are only 6½% higher than before the war.

Vitreous china is still at practically the pre-war price level—one added reason why your new lavatory should be made of this time-tested material. Vitreous china has always represented the ideal in lavatory construction. Its smooth, flint-hard surface will remain lustrous for a lifetime of household service. It will not stain, rust, or change color—will not check or craze. No scrubbing, no scouring . . . just a swish with a damp cloth and a vitreous china lavatory is as brilliant and glossy as the day it was put in.

THE Classic

TWIN-LEG LAVATORY

The new **Classic** is the latest version of a dressing table lavatory in vitreous china. Trim lines and neat styling are set off by well-designed twin legs. Has large anti-splash bowl with concealed front overflow. Low ledged back will fit under window or medicine cabinet. Make your own choice of fittings at lowest prices.

Size 22"x18" \$22.95
Towel Bar 2.65

\$11.50

Less Fittings

THE Economy

Though it has all the newest features, this lovely streamlined **Economy** costs no more than the most old-fashioned lavatories . . . and it's made of genuine vitreous china. New, low back fits snugly under window or medicine cabinet. Roomy bowl with anti-splash rim. Self-draining soap receptors. Size 19"x15", less fittings \$11.50

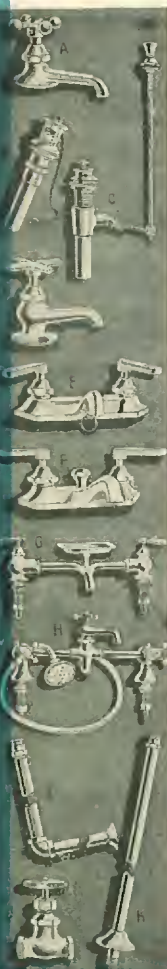

See Our Complete Display of Jewelry Chrome Fittings

Just a few of our many lavatory fittings can be listed here. In our stores we have on display, plainly priced, a vast selection of fittings for every taste and requirement. A complete assortment of traps, as well as additional faucets and strainers, is listed elsewhere in this catalog.

It's your choice. You can buy materials only or complete installation.

19"x17"

VETERANS NEED HOUSING . . . MAKE A NEW APARTMENT IN YOUR HOME NOW

YOUR DOCTOR WILL TELL YOU

He Knows the Importance
of a Sanitary Toilet

It wouldn't be far-fetched to consult your doctor about the toilet in your home. First of all, he'd warn you of the hazard of disease from chipped, cracked, worn-out toilets. Then, he'd caution you in the selection of a new toilet . . . to make sure it was sanitary, that the soiling area was under water, that it was of a comfortable height to promote easy health habits.

The new *Strand*, with tank and bowl sealed as a single unit, needs no wall support, shows no unsightly flush pipes. Genuine reverse trap water action quickly and quietly empties bowl. Maximum bowl area. Highest quality bronze fittings in tank. Priced less seat . . . you make your own choice from our complete selection. **\$36.00**

This is the water action in the reverse trap *Strand Uni-Toilet*. Whirlpool action empties bowl. Note the high water level. No escape of sewer gas.

EASY PAYMENTS

Complete Details on Page 2

THE Sani-Tank

This sanitary septic tank operates by gravity and bacterial action, the same as used in many city disposal plants. No chemicals used . . . no attention needed. The new *Sani-Tank* is constructed of heavy gauge copper-bearing steel, with all seams electrically welded, making it absolutely leak-proof. Heavily coated with asphaltum, inside and out, to prevent rusting and assure long life. Approved by health and sanitation authorities.

500 gal. tank, 60"x52" **62.85**

Steel grease trap to prevent sink grease from entering septic tank. **18.95**

WATER PUMPS

Space does not permit complete listing and illustration of all the various types and sizes of water pumps available at our stores. Check our low prices for shallow well pumps, deep well pumps, cistern force pumps, pitcher sump pumps, electric cellar drainers, or any other types of water pumps.

Open Front Seat. Solid rubber—can't split. Completely sanitary. Fits any bowl. Black, less cover. **\$6.75**

With cover. **9.90**

Colored Seats. A wide range of colors to harmonize with almost any decorative scheme. Fits any bowl. **\$8.20**

MOTHER-OF-PEARL TOILET SEAT

Beautiful flake design. Seamless finish of heavy sheet celluloid. Will not chip, discolor, or craze. Not affected by household acids or moisture. Choice of colors. Fits any bowl. **\$9.75**

SUPERIOR WHITE SEAT

This gleaming white seat will retain its original beauty for years. Will not discolor, chip, or craze. Seamless finish of sprayed white enamel. New art pattern hinge. Will fit any bowl. **\$6.95**

VITREOUS CHINA WALL URINAL

For taverns, hotels, and public rest rooms. Complete with spud and integral strainer. 18"x13". **\$15.50**

White Closet Seat. Sprayed seamless finish. Well constructed. Complete with cover and attractive chrome hinge. Will fit any bowl. **\$4.95**

Child's Toilet Seat. Makes training easy. Ideal for traveling. Collapsible for easy storage. Fits over regular toilet seat. **\$2.67**

THE Economy TOILET

Only
\$28.00
Complete

An outstanding value. Both tank and bowl are genuine vitreous china. Bowl is standard washdown type. Our low price includes all tank fittings of copper or bronze and also chrome-plated flush elbow. Toilet seat priced separately.

← THE Compact UNI-TOILET

The free-standing *Compact* is priced as low as old style toilets elsewhere. Tank rests on bowl to form a single unit—eliminating flush pipe and making cleaning twice as easy. Both tank and bowl are of stainless vitreous china. All fittings are included. Seat not included . . . you make your own selection from our large assortment of styles and colors. Complete, as described above. **\$29.95**

THE Classic UNI-TOILET →

The *Classic's* new design eliminates the front hump and gives greater water surface. Reverse trap provides quick, quiet, and thorough flushing with less water. Tank and bowl, both in sparkling stain-proof vitreous china, are sealed in a single unit. No flush pipe to mar its unbroken beauty. High quality tank valves included. Without seat . . . make your own choice from our complete selection. **\$31.90**

CLOSET REPLACEMENTS

Other closet repair and replacement parts are shown on page 19 of this catalog.

Washdown Bowl. Replaces most broken bowls. We have special bowls for all types of installations. **\$13.75**

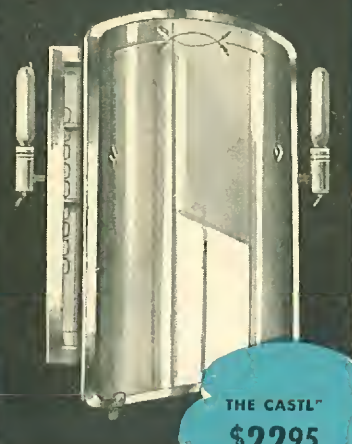

Closet Tank Lid. Adjustable to fit various size tanks. Several patterns to choose from. **\$1.80**

Closet Tank. Made of genuine vitreous china. Includes lid and all valves and fittings. **\$18.60**

QUALITY TOILET SEATS

YES! PRICES ARE STILL LOW

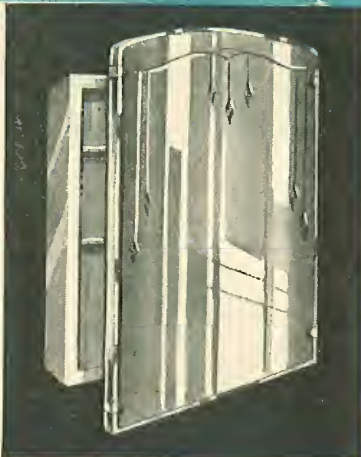

Here's proof! More than three-fourths of the items on this page are the same price or even lower than they were five years ago.

GLORIOUS WALLS of *Lux-Tyle*

LOOKS LIKE TILE! CLEANS LIKE TILE! COLORED LIKE TILE!

Here's the new low-cost way to give your rooms a permanently modern, colorful, sanitary wall treatment. This luxurious tileboard comes in large, easy-to-handle panels and can be used in either old or new homes. With these hard-surfaced, brilliantly beautiful, tile-like panels you can make the smartest of interiors... at a very low first cost and absolutely no upkeep at all. Lux-Tyle needs no periodical renovating. Once applied, your decorating problem is solved permanently.

33c Sq. Ft.
4' x 4' Panel

Lux-Tyle IS EASY TO INSTALL because it comes in large panels

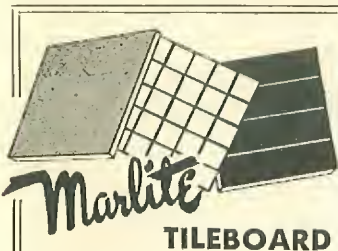

This modern tileboard consists of a plastic surfacing, which, while still in its liquid state, is permanently fused by heat treatment onto large panels of tempered fibreboard. This special tempered fibreboard base makes it possible to be sawed, nailed, and planed like lumber, with ordinary carpenter's tools. It will not split, crack, craze or chip. Can be applied with inexpensive cement. Complete instructions furnished.

EASY TO SAW EASY TO INSTALL

OUR 5-POINT INSTALLATION SERVICE

If you do not wish to install your tileboard yourself, consider the 5 big advantages of our installation service (details on Page 3). Your job will be installed by only the highest type of skilled workers. We will be glad to furnish a free estimate covering the entire cost. Our Easy Payment Plan is also available for either the necessary materials only, or the completely installed job.

MARLITE TILEBOARD

For the very best quality, specify MARLITE, the nationally famous tileboard made by Marsh Wall Products, Inc. Marlite can be supplied in either 4'x4' or 4'x8' panels at the same low price.

PLAIN COLORS: Solid color panels, ideal for upper walls and ceilings or for entire rooms. **43c**
Per sq. ft.

TILE PATTERN: 4" squares give the appearance of tiled walls. **44c**
Per sq. ft.

HORIZONTALINE: Double score-lines 16" apart... for the latest architectural effects. **44c**
Per sq. ft.

Moldings and Supplies listed under Lux-Tyle can also be used with Marlite.

BRILLIANT ARRAY OF GLORIOUS COLORS

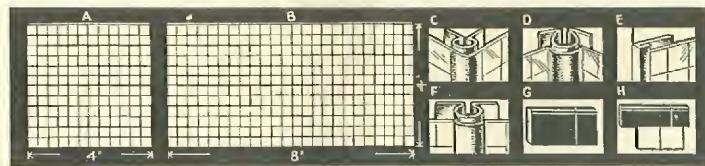

Most popular for bathrooms and kitchens are the panels scored in tile-like squares—in alluring tile colors. These luxurious colors and patterns can be combined to give you unrestricted freedom in color-planning your rooms. The parallel and streamlined scorings are especially effective for large rooms. Then there are the lustrous plain panels in every conceivable color. Limited space does not permit a listing of the glorious variety of patterns and colors. Visit our store, see this colorful tileboard displayed as it will actually appear in your own home.

NO DIRT, NO MUSS WITH *Lux-Tyle*

Previously, the desire for tile walls in bathrooms, kitchens, or any other room brought forth a mental picture of anguish, expense, days and days of fuss and muss with workmen—stumbling over piles of materials. NOW, with TILE-BOARD, this mental picture dissolves. The application is so easy that you can actually do a splendid job of installing it yourself. You need only a sound wall structure, fairly smooth; age of the building is not an important factor. Our skilled workmen can move in on the job and quickly apply this lovely tile-like board over your present walls. No debris of plaster or mortar. The use of the room is not even disturbed.

Lux-Tyle IS EASY TO CLEAN

As easy to keep sparkling as a china dish—simply wash it with warm water and a soft cloth. Where stubborn stains remain, use any good non-alkali or non-abrasive soap. This luxurious wall covering is proof against all vermin that thrive in partitions. Its glorious surface is not affected by any of the elements that tend to destroy ordinary wall finishes under normal use, such as heat, water, or steam.

Lux-Tyle TILE PATTERN

Magic Maid CABINET SINKS

Are Actually 11 $\frac{1}{3}$ % Lower In Price Now
Than They Were a Year Ago Under O. P. A.

Here's more proof that we've kept prices down. These lovely *Magic Maid* cabinet sinks cost \$8.00 to \$25.00 less today than they did last year when O.P.A. price ceilings were in effect. Today, with the way other appliances have gone up, a Magic Maid

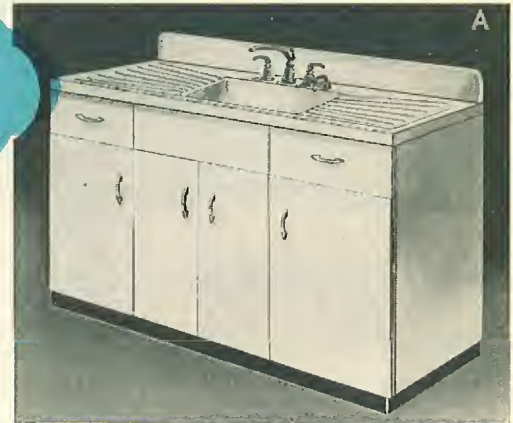

cabinet sink costs less than half the price of an ordinary stove, refrigerator, or washer . . . and an efficient cabinet sink is the biggest time-saver and work-saver in the entire kitchen.

Why Your New Sink Should Be a *Magic Maid*

54" **MAGIC MAID**
\$76⁰⁰

Kitchen VENTILATING FAN

Permanent
Built-In Model
\$36⁹⁵

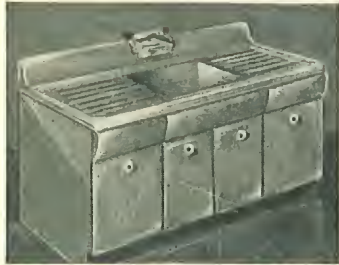

Your kitchen can be cool all summer. This ventilating fan provides a complete air change in the kitchen every three minutes, relieving the unbearable heat that makes summer cooking so miserable in many homes. Kitchen odors — and the odor of tobacco too — are eliminated. Smoke, fumes, and grease from the kitchen pass through the ventilator into the outside air. Without a ventilator this greasy grime penetrates through the other rooms laying a film on curtains, woodwork, walls, and furniture. Installation is very easy. It is necessary only to cut an opening through the wall and connect the motor to the house wiring.

THOUSANDS OF VETERANS NEED LIVING QUARTERS. DO YOUR PART!

The Very Finest Kitchens have MUTSCHLER *Porta-Bilt* CABINETS

There is a world of difference in wood kitchen units. Some cabinets are made of cheap lumber, shoddily put together. They are not worth having at any price. Then, there are wood units of real quality . . . like the famous Porta-Bilt kitchens made by Mutschler at Nappanee, Ind. They are actually custom-made kitchens, constructed of flawless hardwood and finished in genuine DuPont Dulux. Doors and drawers are marine type . . . a honeycomb inner construction used on luxury liners to prevent sagging and warping. The entire working surface is a single block of heavy gauge linoleum with never seam or crack to break its sweeping beauty. Available in any required size and in a variety of color harmonies.

American CABINET SINKS \$149⁵⁰

54 inch unit
complete with fittings.

Do you want something as modern as to-morrow for your kitchen. The new American cabinet sink is just it, with its smooth streamlining, spring-closing doors, lucite handles, sparkling chrome spray faucet. It's all-steel, reinforced throughout to stand even the heaviest usage. Start with the cabinet sink now and add matching wall cabinets and base cabinets as you need them.

CHECK ALL THESE *Porta-Bilt* FEATURES

- ★ Seamless top of heavy-gauge linoleum with stainless steel frame.
- ★ Deep dishwashing bowl, triple coated with lustrous acid resisting porcelain.
- ★ Roomy cabinets complete with cutlery drawers, metal bread box, and flour bin.
- ★ Sturdy construction—sag-proof doors and drawers . . . sound deadened.
- ★ Approved by all plumbing inspectors.

YOUR CHOICE . . . BUY MATERIALS ONLY OR COMPLETE INSTALLATION

IN 5½ YEARS, ONLY 70c INCREASE ON KLEEN-STONE BOILERS

With food, clothing, etc. so high in price, it is refreshing to find plumbing material like Kleen-Stone boilers still selling at practically the old O.P.A. ceiling prices. The price on a 33-gal. Kleen-Stone is just 70c higher than it was back in 1942. And with a Kleen-Stone, you won't have to worry about replacement in a few years. A Kleen-Stone tank can't rust because it's lined with stone. It can't wear out; it can't corrode. Water touches nothing but the sanitary stone lining . . . it comes to you *clean enough to drink*.

**WHEN IT'S STONE-LINED
IT CAN'T RUST**

"Who used all the hot water!" That familiar morning cry is gone forever once you've installed an ample Kleen-Stone Boiler.

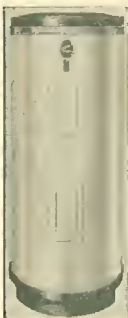

INSTALLATION

Have you already made plans for installing your new Kleen-Stone, or do you wish us to do the job for you? The choice is yours. Read page 3 for complete details of our guaranteed installation service.

Electric Kleen-Stone Water Heater

\$198

Enjoy all the convenience and safety of automatic electric water heating PLUS guaranteed long life with stone-lining. It can't rust. 10-year written guarantee. Beautiful insulated. Beautiful Dupont Dulux white baked enamel finish.

KLEEN-STONE BOILER

\$26⁹⁵

A Kleen-Stone Boiler can't rust . . . it's completely lined with stone.

This same stone lining also serves to keep the heat in the water. It acts like a giant Thermos jug — saving fuel, permitting no wasted heat. The tank itself is made of heavy steel to resist even extreme pressures. So it's the stone that holds the pressure. That's why it's possible to give a written guarantee of 20 years with every Kleen-Stone. A Kleen-Stone Boiler will replace your galvanized or copper range boiler — no need to change gas or water lines. A wide variety of sizes are available.

Size Inches	Capacity Gallons	Price
14x48	28	\$26.95
14x60	33	26.95
16x60	45	35.95
18x60	60	46.60
20x64	75	59.85
24x64	100	71.85

All Kleen-Stone Boilers are guaranteed in writing for a full twenty years, but actually they are built to last a lifetime.

AUTOMATIC KLEEN-STONE ASSEMBLY

Stone-Lined Boiler,
Double-Quick Heater,
and All Fittings

\$59

Gas automatically turned off and on as more or less hot water is required. Saves steps . . . no need to light or turn down heater. Saves gas . . . boiler is never overheated. No wasted fuel, and yet there is always plenty of clean hot water. This low price includes the complete hot water assembly — rust-proof Kleen-Stone Boiler; insulated Double-Quick Heater with copper coil and safety flash-lighter; automatic snap-action thermostat; brass boiler unions; dip tube; copper circulator; boiler and heater coupling; draincock; and boiler stand. Everything up to the gas and water lines.

LAWN SPRINKLERS

Bury pipe or copper tubing a few inches underground and space sprinkler heads throughout your yard or garden. Gives you a permanent lawn sprinkling system that is turned on or off with a twist of a valve handle . . . no garden hose to drag out, no attention needed. Each sprinkler covers approx. 100 sq. ft. with a fine misty spray that drenches the soil slowly and evenly. Bring us a sketch of your yard and we'll let you know exactly how many sprinklers and how much tubing you need. Solid brass, rust-proof lawn sprinklers, each 69c

MODERN LAUNDRY TRAYS TO MAKE YOUR WASHDAYS EASIER

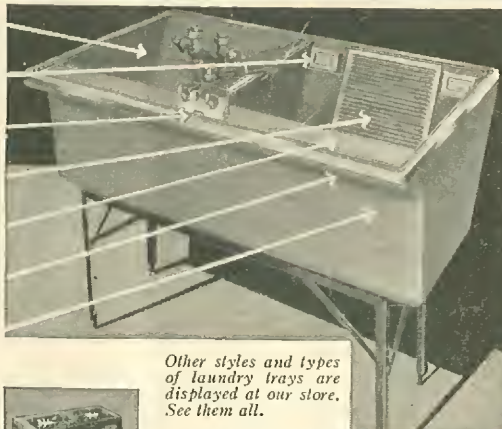

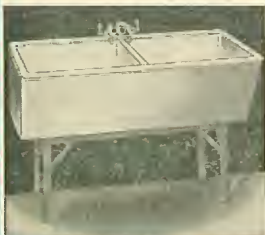

New Shelf Laundry Tray The Tray with ALL the Latest Features **\$22⁰⁰**

This newly designed laundry tray has a handy shelf-back that extends over its entire length. This built-in shelf provides a convenient place for all your soaps, powders, cleansing fluids, etc. on washdays . . . right where you can get them when you need them. Tray itself is unit-cast of finest hydraulic cement, seamless and free of rough joints. Interior finish is absolutely smooth . . . will not absorb dirt. Entire unit is reinforced with steel rods. Improved metal rim is perfectly smooth — no rough edges. Metal washboard is built right into the tray. Also has built-in, self-draining soap dish. Less stand and fittings.

STONEWARE LAUNDRY TRAYS

\$16³⁵

Sturdy double compartment trays cast in one piece over a framework of steel rods. Size 48" x 24". Price includes metal guards, stoppers, and twin waste connection. Stand and fittings priced separately.

Other styles and types of laundry trays are displayed at our store. See them all.

GAS LAUNDRY STOVES **\$7⁹⁵**

Sturdily constructed. Steel shelf and legs. Black enamel finish. Efficient, trouble-free burners.

LAUNDRY TRAY FITTINGS

(A) SwingSpout Laundry Faucet. Solid brass. Threaded for hose. Includes clamps and unions. \$4.25

(B) Ledge Type Laundry Faucet. New angle-throw swing spout. Hose thread. Nickel-plated brass. Each \$5.75

(C) Laundry Tray Trap. Wall type. Brass, with swivel, cast outlet. 1½" size . . . \$2.30

(D) Laundry Tray Stand. Sturdy angle steel stand. For 2 part tray \$2.70

TO KEEP YOU IN "HOT WATER"

We Can Furnish Any Equipment for Your Hot Water Needs. Come in. See Our Vast Selection

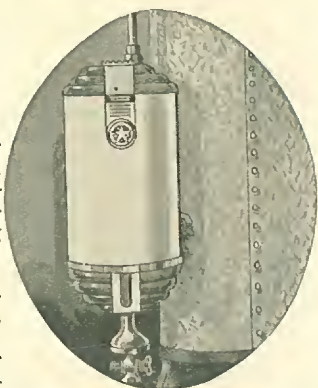

Double Quick STREAMLINE HEATER

★Fully Insulated
★Saves Gas

\$15⁹⁵

Here's a new heater that's truly modern both in appearance and operation. Handsome streamline lining plus its glistening baked enamel finish make it simple to clean. Complete insulation prevents heat loss and cuts down your gas bill. Seamless double copper coils assure quick delivery of hot water. Flashlight equipped, it lights safely and without opening door. Easily installed . . . can be attached to any boiler without changing present pipe lines. Approved by American Gas Association.

Double Quick Streamline Heater. **\$15.95** Extra Capacity Double Quick Heater **\$17.90**

Automatic ELECTRIC Storage Water Heater

A deluxe water heater with every feature to make it completely safe, completely automatic. It's beautiful, too, with its white Dupont Dulux baked enamel finish. 52-gallon capacity storage tank is double extra heavy — 300-lb. test. Insulated with Fiberglas 3" thick to keep in all the heat. Twin Chromalox heating elements are the immersion type. Silver point thermostats are adjustable to deliver water from 100° to 180° F. New rate of 1c per KWH offered by utility companies for electric water heaters makes it even more economical to operate. We can tell you within 50c what your monthly cost will be.

\$139

52 GALLON

We'll Help You Select the Proper Boiler and Heater

Dozens of combinations can be made from the many boilers, heaters, and accessories on these pages. If you are not sure about the correct boiler, heater, or fittings to complete an assembly for your home, just ask our men. They're experienced plumbing men, and they're glad to help you.

Extra Heavy GALVANIZED BOILERS

Gals.	Inches	
30	12x60	\$14.60
40	14x60	18.70
15	12x30	13.55

Made of full gauge copper-bearing steel, heavily galvanized inside and out. Electrically welded. Tested under pressure at the factory. Extra heavy weight. 150-lbs. per sq. in. working pressure.

REPAIR PARTS FOR EVERY TYPE OF BOILER OR HEATER

We have a complete selection of first quality fittings and accessories for all boilers and heaters. Come in. See our displays. Prices are low—plainly marked.

(A) Boiler Stand
Tripod type. Adjustable 65c

(B) Brass Drain
Cock
1/2" Pipe Thread. Outlet has standard hose thread 89c

(C) Copper
Circulator
Connects heater to boiler without threading pipe. Unions included \$2.49

(D) Dip Tube
Promotes fast circulation; gives quick hot water. 1/2" size 95c

(E) Boiler Unions
Solid brass with ground seats.
Straight top cplg. 90c
Bent top cplg. 95c

(F) Boiler Elbow
Long sweep pattern.
Galvanized 50c
Brass 65c

(G) Boiler Plug
Plugs leak in boiler. Easily put in place 15c

(H) Heater Valve
Brass. Straight or angle pattern 85c

(I) Four pages would be needed to show all the coils, burners, and other boiler and heater parts that we carry. We have all parts for all makes of equipment.

COAL-FIRED WATER HEATERS

These coal heaters are made of the best grey iron and tested for high water pressure. Deep ash pits. Easily operated grates. Require firing only twice daily. Sizes for every requirement.

Dome-type heater, can be used with any size tank from 30-gallon to 85-gallon. **\$26.00**
Combination Water Heater and Laundry Stove **\$15.90**

WATER HEATERS! EVERY TYPE AND SIZE

DOUBLE COIL GAS HEATER

Efficient 3/4" copper coils. Star drilled burner and cast jacket. Will replace single or double coil heater. Includes gas valve. **\$15.95**
Similar heater with cast iron coil **\$12.95**

JUMBO GAS WATER HEATER

For use where large amounts of hot water are needed. Heavy duty 3/4" copper coils. A. G. A. approved. Complete with gas valve. Double coil **\$21.00**
Triple coil 49.95

KEROSENE WATER HEATER

For homes without gas supply. Giant burner gives a blue, hot, noiseless flame. Newly designed for extra fuel economy. No fumes or smoke. Complete **\$38.95**

These Gas Savers Quickly Pay for Themselves

(A) Pressure Relief Valve. An insurance you can't afford to be without. Gives positive protection against boiler explosions. Easily inserted in pipe line above boiler. Made of bronze **\$2.48**

(B) Draft Hood. Prevents back-draft from blowing out flame in heater. Also keeps excessive up-draft from sucking up heat . . . cuts your gas bill. Fits any water heater. **95c**

(C) Snap Action Thermostat with Pilot. Makes any heater automatic. Saves steps . . . no need to light or turn down heater. Water temperature stays at thermostat setting. Saves gas . . . boiler is never overheated. Has no moving parts to get out of order. A.G.A. approved. **\$8.35**

(D) Throttle Type Automatic Thermostat. Similar to above—lower priced. Without pilot **\$6.90**

(E) Air-Cell Boiler Jacket. Keeps all the heat in the water. Cuts gas bills. Anyone can attach it to tank in 20 minutes. 30-gal. **\$2.79** 40-gal. **\$2.98**

WATER SOFTENER

only

\$79⁵⁰

Complete

WATER SOFTENERS

An independent research shows that the average family in hard water areas can save more than \$100.00 per year by using soft water. Soft water makes food taste better, clothes last longer, too. Buy your own water softener and it's yours for keeps . . . no monthly service charge to pay, no strangers tracking through the house to re-charge the tank. There is nothing complicated about our water softener. You can install it yourself in just a few hours. Once installed, it requires very little attention.

20,000 grain capacity, **\$79.50** 30,000 grain capacity, **\$95.00**

Instantaneous Water Heater

Supplies hot water as long as faucet remains open. Large range of sizes. Priced as low as

\$148⁰⁰

WE PRINT OUR PRICES FOR ALL TO SEE. WE WANT YOU TO COMPARE

HOW DO THESE PRICES COMPARE WITH PRICES A YEAR AGO?

Yes, some of the prices on this page are slightly higher than prices a year ago, when O.P.A. was still in existence. To be exact, 46 of them have gone up. (The other 56 are still the same or even lower.) On those that have advanced, the increase averages less than 8%—the exact amount of the manufacturer's increase. Compare that with the way other items in the family budget have sky-rocketed.

Sink Faucets

A full weight cast brass faucet of pleasing appearance. Will fit any sink. Adjustable flange. Chrome plated, ea. \$2.95

Plain Bibbs

A good grade, plain faucet at a very low price.

10,000 ITEMS . . . AND EVERY ONE FAIRLY PRICED

COPPER OUTLIVES THE PYRAMIDS

Before the pyramids were built, copper pipe was used in crude form. Recent excavations on the Island of Crete unearthed copper piping in good condition after thousands of years. Copper piping at our low prices will cost you very little more than rustable forms of piping. Consider carefully the different forms of rust-proof piping

on this page. Compare prices with other types and you will find it will pay to install copper for permanency, clean water and trouble-free efficient service. At our low price everyone can enjoy a permanent, rust-proof water supply.

STRATELINE COPPER TUBING

The latest development in copper piping is the Strateline system in which are used tubes of ample weight and slim, neat fittings. Joints are made by sweat soldering. The fitting is placed in position and heated with a torch. At the proper temperature, the solder, when held to the joint, will flow evenly and completely throughout the joint, regardless of position. Strateline copper is made in three weights: M (light), L (med.) and K (heavy). L and K are recommended for general plumbing use. L tests 2000 lbs. bursting pressure. Strateline copper tubing is 99.9% pure virgin copper. It is proof against rust and corrosion, which means clean water, no clogged pipes or expensive repairs. Fittings are of heavy red brass, designed for strength and trim appearance. A fitting for every requirement will be found in our complete stock. If you cannot make your own estimate from this catalog, bring in your sketch and we will estimate the job for you. All sizes and weights conform to Government specifications.

SOLDER FLOWS UP AUTOMATICALLY LIKE WATER IN A SPONGE

"PERMA" COPPER TUBING

This tubing, which conforms to Government specifications, is of the same sizes and weight as Strateline copper tubing, differing only in the fact that it bends easily. It can be used in more difficult places and with fewer fittings. It is used largely for water service lines from mains to buildings and is ideal for installations between walls and floors as it can be "fished" through close places. "Perma" fittings require no solder—they are attached to tubing by flaring the tubing ends. Only four tools are needed: hacksaw, flaring tool, hammer and wrench. Strateline solder fittings can also be used, as "Perma" and Strateline tubings are of the same diameters. With either type of fitting, no expensive cutting and threading tools are required. Type L and K are recommended for inside of buildings—type K for underground use. Visit our store and let us show you how easy it is to install "Perma" copper tubing.

COPPER PIPE

Full weight in the same thickness, diameter, and threading as steel pipe. Being rust-proof, it will add to the value of your house. It is seamless and can be bent and shaped without opening up. Designed for stress and maximum service. Can be furnished in 12-ft. lengths, or we shall cut and thread it to your exact measurements.

All commonly used fittings can be furnished in chrome at slightly higher prices.

WITH TROUBLE-FREE COPPER, THE FIRST COST IS YOUR ONLY COST

USE OUR COMPLETE PIPE SERVICE

In our complete stock of pipe and fittings, you will find anything you need for water supply, drainage, sewer, heating, gas, irrigation, railing, structural, industrial or other piping. We maintain a service for cutting and threading pipe to your exact measurement or sketch of installation.

STEEL PIPE

Our steel pipe is made in the nation's best known mills of high quality steel and the latest scientific methods. It is of uniform thickness—cuts and threads easily and every length is full weight. Each length is carefully inspected and tested under severe hydraulic pressure. Galvanized pipe is cleaned in an acid bath and then coated inside and out with pure molten zinc. It is accurately threaded by machine. Each full length is

furnished with full threads on each end and one coupling without extra charge. Pipe cut and threaded to your measurements carries a slight additional charge. As of the time this catalog is printed, steel pipe is extremely scarce, and we may not be able to meet your requirements at all times. Please bear with us and call again.

ROOFING MATERIAL

The paper shortage made us condense this year's "Home Owner's Thrift Guide", and we couldn't devote the usual pages to our large selection of roofing material. We are pricing in this scant space just a few of the most common items. At equally low prices we also have all fittings for rainspout and gutter, sheet and roll tin, roofing papers, asphalt shingles, all kinds of roll roofing, and brick siding. Everything is on display at our stores.

EVEN ON THE SCARCEST ITEMS — WE'VE KEPT PRICES DOWN

The scarcity of an item has never been a factor in setting our prices. When soil pipe was selling at \$10.00 a length in many places, we still kept the rock-bottom prices you see on this page. We intend to be

in business for a long time, and we believe you will remember companies like ourselves that didn't take advantage of shortages. That's why we have always kept the same low prices regardless of whether the material was plentiful or "hard-to-get."

SOIL PIPE YOU CAN DEPEND UPON

Cast iron soil pipe is far more satisfactory for sewers than clay tile. It does not sag or crack. When the joints of cast iron pipe are properly caulked, roots cannot enter to clog the sewer. Our pipe is made of close-grained, dense, full-weight cast iron. Walls of uniform thickness. Easily cut with a cold chisel. All pipe and fittings are extra heavy weight and will conform to even the strictest local plumbing codes.

SOLD IN FIVE-FOOT LENGTHS

By cutting double hub pipe for short lengths, each length has a hub.

ADJUSTABLE CELLAR POST \$8⁹⁵

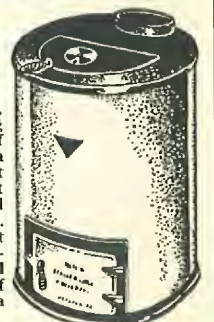

You can correct sagging floors and dangerously weak joists. Do it yourself at little cost with these adjustable steel cellar supports. They will replace present rotted cellar posts or they can be used as an extra precaution. They are made of heavy steel and can be adjusted to any cellar height from 5'7" to 8'4". Can also be used as a "jack."

HOME INCINERATOR

\$47⁸⁵

Get rid of messy, smelly, rat-breeding garbage cans full of maggots. Install a home incinerator that will burn all your wet or dry garbage and all your burnable rubbish. No fuel needed except the waste material itself. No odors. Will burn three bushels of garbage and trash at a time.

For even faster burning, this incinerator can be furnished in a gas-fired model. Same 3-bushel capacity. Easy to install—you can do it yourself in less than a half-hour. Gas-fired unit at a thrifty price of.....\$76.80

NOW, MORE THAN EVER, IT PAYS TO COMPARE PRICES BEFORE YOU BUY

YOUR ONE-STOP PLUMBING SERVICE

No need to scour the city in search of your plumbing needs. Whether it is a bath tub or a washer, sink or repair part, you will find it at our store and at money saving prices. Get acquainted with this "one-stop" service—visit our store today for anything you may need in the plumbing line.

(G) Lead Melting Pot, 5"..... **.63c** 6"..... **.98c**

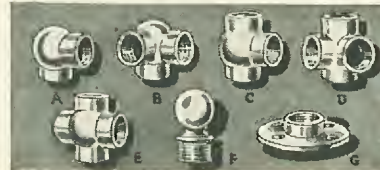

LEAD GOODS

Due to constantly changing markets, we cannot price lead goods in this catalog. Bear in mind, however, that we maintain a complete stock of lead pipe, bends, drum traps, closet bends, sheet lead, cake lead, solder—in fact every lead plumbing item required in this section.

With the railing fittings shown here, you can build your own railings to suit your exact requirements. If you will bring in a sketch of your job, we can cut and thread your pipe to exact size. Our engineers will be glad to assist you on your railing problems.

Malleable Railing Fittings

	1 1/2"	1 3/4"
(A) Elbow.....	.30c	\$.47
(B) Side Outlet Elbow.....	.60c	.96

THIS CATALOG

This is your copy of the new "Home Owner's Thrift Guide." It has been prepared at considerable cost to give you a reliable catalog for all your plumbing and heating needs...to serve as a Buyer's Digest of all that's smart and new in home modernization. Check through the thousands of illustrated items. All are plainly described and priced. Then, keep this guide handy. It will save you time and money whenever you need anything for the home.

OUR STORE

Unlike a number of mail order catalogs... these catalog prices are our store prices. You pay no penalty just because—like all alert buyers you want to see merchandise before you buy. Visit our store. It's your privilege to see, touch, operate, examine any item. Feel free to inspect our complete displays of bathroom, kitchen, laundry, heating, and other supplies at your own leisure. They're all arranged just as they would appear in your own home—all are plainly priced. The pictures show in just a small way the pleasant shopping surroundings here. Parking facilities, courteous salesmen, and an eager desire to be of service await you, too.

THE JOB WE'RE TRYING TO DO

Our purpose in sending you this catalog... our purpose in doing business at all... is to help you obtain the necessary things to make your home a happier place to live in—at a moderate cost to you and at a reasonable profit to ourselves. We do not pretend to be giving away anything for nothing. We do not claim to be able to work miracles in your home. But, we do give every effort to providing you with quality materials at the lowest possible cost. We try to maintain complete and varied stocks, ready for immediate delivery. Also we try to give you our frank, sincere advice as to just what will give you the best service. We want to give you material that will satisfy in every way. If we make a mistake—and who doesn't—we are glad to rectify it. After all, we're just a group of everyday humans, fired with a desire to do an honest job, backed with an unusually thorough knowledge of plumbing and heating. Won't you visit our store and let us show you how we can help you?
